Professional Summary

I am an enthusiastic, fast-learning Master's student in Computer Applications, specializing in Generative AI. My background in computer science is well established by my academic success and certifications. I enjoy working on innovative projects, especially those involving AI, and am eager to contribute my skills in a vibrant, evolving workplace.

Technical Skills

- Python Programming
- Generative AI and Large Language Models (LLMs)
- Amazon Web Services (AWS)
- Artificial Intelligence and Machine Learning
- Data Structures and Algorithms
- Prompt Engineering
- Cyber security

Projects

Agro AI-suite: AI-powered smart farming

- Built an end-to-end AI application using PyTorch computer vision classifiers and a Gemini-based RAG architecture.
- Developed secure asynchronous FastAPI backends with API rate limiting, SQLite WAL caching, and PWA integration.
- Applied full-stack AI development, deep learning, RAG, and REST

Aura Mind: AI mental health companion

- Developed a full-stack AI PWA using React, Node.js, Express.js, SQLite, and Google Gemini API.
- Integrated a TF-IDF RAG engine for CBT/DBT tools, dual-layer safety guardrails, speech-to-text, mood analytics, and PDF export.
- Implemented AES-256 encryption and application-level safeguards for sensitive user data.

Internships

- **Gen AI Virtual Internship** - Powered by EduSkills Foundation (supported by AICTE& AWS Academy)
- **Cyber Security Virtual Internship** - Powered by EduSkills Foundation (supported by AICTE & Palo Alto Networks)
- **AWS Cloud Computing** - Powered by Adhoc Network Tech Company
- **Internship in AIML using Python Language** - Powered by Ulearn (supported by University of Colorado Denver)

Education

- **MCA** - SRM Institute of Science and Technology - Chennai - **8.76 CGPA (Currently Pursuing)**
- **BCA** - Aditya Degree College - Visakhapatnam - **8.33 CGPA (2022 - 2025)**
- **HSC** - A.P Model School and Junior College, Purushothapuram - **66.8%**
- **SSLC** - A.P Model School and Junior College, Purushothapuram - **97.13%**

Certifications

- Fundamentals of Generative AI for Beginners, AWS
- Generative AI: Introduction and Application, IBM
- Introduction to Artificial Intelligence, IBM
- Introduction to OpenAI, KodeKloud
- Sara's OpenAI and Gen AI, SRM University
- Python for Data Science, Infosys
- CLA: Programming Essentials In C, Cisco
